

AMERICA'S CUP CLASS

PUBLIC INTERPRETATION No 1

November 26, 2004

Page 1 of 1

In response to the following:

The third line of ACC Rule 17.8 refers to ACC Rule 14.7 which does not exist. Could you please advise the correct reference for maximum width limitation in ACC Rule 17.8.

INTERPRETATION

The reference to ACC Rule 14.7 in the third line of ACC Rule 17.8 is incorrect.

The reference to "ACC Rule 14.7" in ACC Rule 17.8 is replaced with "ACC Rule 15.1(a)".

For clarity ACC Rule 17.8 shall now read:

17.8 **Appendages** may only be attached to the **hull** within the "hollows permitted" zones described in **ACC Rule 15.1(a)**. The width of an **appendage** shall not exceed the transverse limits of the local "hollows permitted zone" (as defined in ACC Rule 15.1(a)) for a distance of 1000mm below the local surface of the **hull**; however an **appendage** attachment flange that is not outside the lower surface of the **hull** may exceed a width of 500mm.

*This interpretation is made by the **Measurement Committee** in accordance with Rule 3.3 of Version 5.0 of the America's Cup Class Rule.*
